

Chant commun

Musique choisie: hymne européen

Paroles: première ébauche en France

CHORUS :

We are friends that live together

Our relation will be better

If we will get inferences

We Would cut off all differences

We come from all around the world

Leaving differences behind

Speaking different languages and

Coming together as one

POLAND

Nicolaus Copernicus

Was the one who moved the world

If we want to get together

We just need a simple word

ROMANIA

Beyond the Bran Castle

There is hidden Dracula

Our landscapes are impressive

You feel like heaven there

FRANCE

In France we see life in pink

Like did famous Edith Piaf

Singing and dancing together

To show that Europe is as one

ITALIE

In Italy we have a Colosseum

It as an old arena

I don't want to know the reason

But I want to be with you

ESTONIA

It is very little country

Near of the Baltic Sea

We are electronic country

With a beautiful nature
